

KENYA ROADS BOARD

ANNUAL PUBLIC ROADS PROGRAMME
FY 2012/ 2013

Kenya Roads Board (KRB) is a State Corporation established under the Kenya Roads Board Act, 1999. Its mandate is to oversee the road network in Kenya and coordinate its development, rehabilitation and maintenance funded by the KRB Fund and to advise the Minister for Roads on all matters related thereto.

Our Vision

An efficient road network for a prosperous Nation”

Our Mission

“To Fund, oversee and coordinate road development, rehabilitation and maintenance. We shall ensure prudent sourcing and optimal utilization of resources for socio-economic development.”

KRB FUND

KRB Fund comprises of the Road Maintenance Levy, Transit Toll and Agricultural cess. Fuel levy was established in 1993 by the Road Maintenance Levy Act. Fuel levy is charged at the rate of **Kshs 9** per litre of petrol and diesel.

The allocation as per the Kenya Roads Board Act is as follows:

| % Allocation | Roads Funded | Allocation | Agency |
|--------------|--|---------------|------------------------|
| 40% | Class A, B and C | 9,992,000,000 | KENHA |
| 22% | Constituency Roads | 5,280,000,000 | KERRA |
| 10% | Critical links – rural roads | 2,400,000,000 | KERRA |
| 15% | Urban Roads | 3,600,000,000 | KURA |
| 1% | National parks/reserves | 240,000,000 | Kenya Wildlife Service |
| 2% | Administration | 488,000,000 | Kenya Roads Board |
| 10% | Roads under Road Sector Investment Programme | 2,400,000,000 | KRB/Minister for Roads |

FOREWORD

This Annual Public Roads Programme (APRP) for the Financial Year (FY) 2012/2013 continues to reflect the modest economic growth in the country and consequently minimal growth in KRBF. The Government developed and adopted Vision 2030 which identifies infrastructure as a key enabler for achievement of its objective of making Kenya a middle income country by 2030. The APRP seeks to meet the objectives of Vision 2030 through prudent fund management and provision of an optimal improvement of the road network conditions using timely and technically sound intervention programmes. The Kenya Roads Act No. 2 of 2007 established the three roads authorities which have become fully operational for the past two years. This is further proof of the government's commitment to improving funds management and implementation of road works in the roads sub sector.

The Constitution of Kenya 2010(COK 2010) seeks to further cement this commitment to provision of superior infrastructure through devolved structures. It is not clear, however, how this will affect the institutions set up under the Kenya Roads Act 2007 and subsequent maintenance of roads in the counties. This APRP assumes the status quo will prevail under the transitional arrangements.

Kenya Roads Board (KRB) continues to seek ways and means by which the existing backlog of periodic maintenance and rehabilitation of roads can be tackled to bring the entire road network into a maintainable condition. The RSIP envisages an expenditure of close to Ksh. 130 billion annually on Roads which is above the annual road sub-sector allocation by Kshs 25 billion. In this regard the Board seeks to enhance the KRBF by expanding the revenue base in addition to the RMLF and to raise more funds through an infrastructure bond. These figures will continue to change taking into consideration the inflationary trends.

It is projected that during FY 2012/2013, the Kenya Roads Board Fund (KRBF) may realise Ksh. 24,370,450,000 which will result from possible collections of Ksh. 23,880,450,000 from the proceeds of the Road Maintenance Levy Fund (RMLF), Ksh. 400,000,000 from Transit Tolls and Ksh. 90,000,000 from Agricultural Cess. In addition to these projected collections into the KRBF, the Government has allocated about Ksh. 99 Billion from the Exchequer to be applied towards road works. These funds still fall far short of the total requirement to bring the road network to a maintainable condition.

The need for better roads, however, continues to be a priority for Kenyan road users. To achieve this, KRB is committed to ensuring that value for money is achieved through Technical Compliance, Performance and Financial Audits on all on-going road works activities.

The Board acknowledges the immense support it continues to receive from the parent Ministry (Ministry of Roads), from development partners and from road sector stakeholders. This support ensures that as stated in Vision 2030, the objective of realising enhanced economic development in Kenya through an improved road infrastructure is achieved.

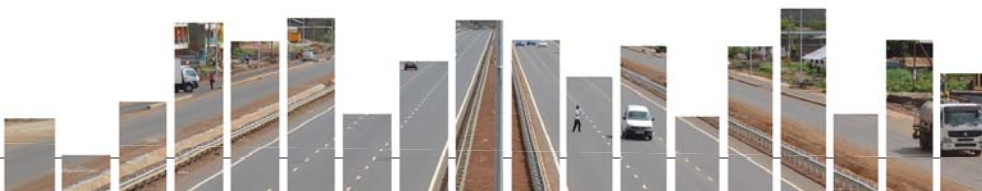

Dr. Francis N. Nyangaga O.G.W

Executive Director

ANNUAL PUBLIC ROADS PROGRAMME FOR THE FINANCIAL YEAR 2012/2013

1.0 INTRODUCTION

1.1 Introduction

This Annual Public Roads Programme (APRP) presents the consolidated Annual Road Work Programmes from the designated road agencies and provides detailed allocations for all the funds accruing from KRBF in the Financial Year 2012/2013.

1.2 Background

Section 31 of the Kenya Roads Board (KRB) Act No. 7 of 1999 establishes the Kenya Roads Board Fund (KRBF) into which funds from various sources are to be deposited. The funds deposited into the KRBF are to be utilized towards the maintenance of the road network in Kenya.

The estimated projected collections of the Road Maintenance Levy Fund (RMLF) during the Financial Year FY 2012/2013 are Ksh. 24,000,000,000 (twenty four billion shillings). Similarly, the estimated collections of the Transit Tolls (TT) during that same Financial Year are Ksh. 400,000,000 (four hundred million shillings). These two primary sources of funds, contribute more than 99% of the funds deposited into the KRBF. It is also estimated that about Ksh. 90,000,000 (ninety million shillings) will be received from agricultural cess.

This brings the total KRBF to Kshs24,490,000,000 (twenty four billion, four hundred and ninety million) Other funds that may be deposited into the fund include unreleased funds disbursed in FY 2011/2012 and carried over funds not disbursed at the close of the FY 2011/2012.

The sum of Ksh. 24,490,000,000 is derived from the sum reflected in the budget speech read by the Minister for Finance in June 2011 and will be reflected as an Appropriation in Aid and a line item in the Ministry of Roads (MoR) Recurrent Vote (R13), under the heading 'Kenya Roads Board'.

Kenya Roads Board is fully responsible for the management of the KRBF and will account for its expenditure to the Accounting Officer of the Ministry of Roads (MOR).

1.3 Annual Public Roads Programme (APRP)

As per the Kenya Roads Board Act No. 7 of 1999, KRB has a mandate to oversee the road network in Kenya and coordinate the maintenance, rehabilitation and development funded by the fund and to advise the Minister on all matters related thereto.

Section 19 (4) of the KRB Act requires KRB to review, individually, the Annual Road Works Programmes (ARWPs) submitted by Road Agencies and consolidate these ARWPs into an Annual Public Roads Programme (APRP).

This APRP is prepared by Kenya Roads Board.

This Annual Public Roads Programme has been developed from the premise that the total estimated collections of the KRBF totaling Ksh. 24,490,000,000 (twenty four billion four hundred and ninety million) will be realized and utilized by the identified Road Agencies in Kenya.

The APRP shall be approved and signed by both the Minister for Roads and the Minister for Finance in accordance with Section 19 (5) of the KRB Act. This APRP informs the Kenyan public on the programme of road works that will be undertaken during the Financial Year 2012/2013.

1.4 The APRP and Funds Releases

The APRP document outlines funding for road works to be undertaken by road agencies as identified in the KRB Act and subsequent legal statutes during the Financial Year 2012/2013. Funds will be released to the road agencies and sub-agencies on a monthly basis as per collection, and after deliberation and resolution of the Board. The APRP also provides a plan of action for road maintenance in subsequent years following the Mid-Term Framework format and forms the basis for monitoring and evaluation of works.

1.5 Length of the Road Network

The length of the entire Road Network in Kenya is 160,886km as shown in Table 1.2.1. This information is based on the road inventory and condition survey for unclassified roads and the updated data for classified roads in 2009.

The Road Inventory and Condition Survey (RICS) for classified roads was completed in 2003 while the RICS for the unclassified network commenced in December 2006 and completed in June 2009. In addition, a new classification system covering the entire 160,886km was completed and presented to the Minister for Roads in February 2011 and is now awaiting adoption by Parliament.

Table 1.2.1 – Road Network and Responsibilities

| AGENCY | Road Class | Paved | Unpaved | Total |
|--------------------|------------|--------|---------|---------|
| KeNHA | A | 2,772 | 816 | 3,588 |
| | B | 1,482 | 1,156 | 2,638 |
| | C | 2,529 | 4,932 | 7,461 |
| | Total | 6,783 | 6,904 | 13,687 |
| KeRRA | D | 1,069 | 9,092 | 10,161 |
| | E | 461 | 24,448 | 24,909 |
| | SPR | 46 | 9,817 | 9,863 |
| | U | 692 | 84,442 | 85,134 |
| | Total | 2,268 | 127,799 | 130,067 |
| KURA | B | 7 | | 7 |
| | C | 164 | 2 | 166 |
| | D | 169 | 367 | 536 |
| | E | 116 | 919 | 1,035 |
| | SPR | 64 | 552 | 616 |
| | U | 1,620 | 8,569 | 10,189 |
| | Total | 2,140 | 10,409 | 12,549 |
| | KWS | C | | 230 |
| D | | | 24 | 24 |
| E | | | 704 | 704 |
| SP | | | 7 | 7 |
| U | | 6 | 3,612 | 3618 |
| Total | | 6 | 4577 | 4583 |
| Total Classified | | 8,879 | 53,066 | 61,945 |
| Total Unclassified | 2,318 | 96,623 | 98,941 | |
| TOTAL NETWORK | | 11,197 | 149,689 | 160,886 |

1.6 Road Network Condition

The Road Inventory and Condition Survey (RICS) undertaken by Roads Department of MoR between 2000 and 2003 indicated that about 19% of the classified network (64,500 km) was in good condition, 49% in fair condition and the remaining 32% in poor condition. A quick visual condition survey done in 2006 for the classified road network indicated that the condition of the network had improved with 27% in poor condition and 73% of roads was in good or in fair condition.

Information available from the just concluded RICS for unclassified roads indicate that only 41% of paved unclassified roads (urban roads) is in fair and good condition while the rest 59% is in poor condition or has totally failed. For the unpaved classified roads only 34% is in good or fair condition while the rest 66% is in poor condition.

Table 1.2.2 – Condition for A, B and C Classified Roads

| Surface Condition | A | | B | | C | | Total | |
|-------------------|---------|-----|---------|------|---------|------|----------|------|
| | Km | % | Km | % | Km | % | Km | % |
| Good | 1730.7 | 48% | 795.1 | 30% | 2447.7 | 31% | 4973.4 | 36% |
| Fair | 1171.7 | 33% | 1504.2 | 57% | 3706.4 | 47% | 6382.3 | 45% |
| Poor | 666.6 | 19% | 346.0 | 13% | 1706.5 | 22% | 2719.1 | 19% |
| Totals | 3,569.0 | | 2,645.3 | 100% | 7,860.6 | 100% | 14,074.8 | 100% |

Table 1.2.3 – Condition for unclassified Roads

| Surface Condition | PAVED | | UNPAVED | |
|-------------------|-------|-----|---------|-----|
| | Km | % | Km | % |
| Excellent | 61 | 2% | 260 | 0% |
| Good | 548 | 17% | 10,885 | 12% |
| Fair | 717 | 22% | 20,868 | 22% |
| Poor | 1,736 | 53% | 61,870 | 66% |

Table 1.2.4 Combined Condition of the Road Network

| Surface Condition | PAVED | | UNPAVED | | Total | |
|-------------------|----------|-----|-----------|------|------------|------|
| | Km | % | Km | % | Km | % |
| Good | 4,697.2 | 42% | 12,582.4 | 8% | 17,279.59 | 11% |
| Fair | 4,150.3 | 37% | 48,665.4 | 33% | 52,815.67 | 33% |
| Poor | 2,350.4 | 21% | 88,439.9 | 59% | 90,790.26 | 56% |
| Totals | 11,197.9 | | 149,687.7 | 100% | 160,885.52 | 100% |

1.7 Funding Requirements for the Road Network in Kenya.

The need for a Road Sector Investment Programme (RSIP) with which the government can source for alternative funds for rehabilitation/reconstruction cannot be over-emphasized. Under the Kenya Roads Act 2007, the Minister for Roads, in consultation with KRB and the Road Authorities, is required to prepare a RSIP every five years which is expected to form the basis of allocation of development and maintenance funds. The Government with the financial assistance from Nordic Development Fund and World Bank prepared the five year Road Sector Investment Programme (2010 – 2014) The RSIP was presented to a stakeholders workshop in November 2010 and the finalized report dated May 2011 is awaiting adoption by parliament.

A five year strategic plan 2010-2014 for the first phase was also prepared to guide execution. This awaits approval of Ministry of Finance.

The RSIP report has estimated the backlog maintenance for the paved network at Kshs 230billion. This comprises 70billion for ongoing and committed roads and 131billion is planned in first

five years to fully address backlog on the national and rural roads and part of the backlog on the paved urban roads. The balance of backlog on the paved urban roads amounting to Kshs27billion has been deferred to after 2014 due to lack of funds.

In addition, in the RSIP, the estimated annual maintenance costs is Kshs 40billion per year and an increase of fuel levy by Kshs 2 shillings is recommended to bridge the maintenance gap. All cost figures are in year 2008 prices.

Some of the development partner funds budgeted under the Development Vote are currently being directed towards this objective. The government has also released substantial funds in the recent past for development some of which have been directed to rehabilitation.

These funds and the development partner support though commendable, fall short of what is required and efforts must be made towards sourcing for more funds to close the existing financing gap.

There are several sources of funds which need be followed up further to provide the funds needed to clear the backlog and to have adequate maintenance on the road network. One such source of funding is the involvement of the private sector in Public Private Partnerships through such schemes as concessioning, Build Operate and Transfer (BOT), Fund Rehabilitate, maintain and transfer, development of infrastructure bonds, etc. Efforts by KRB for an Infrastructure Bond are at an advanced stage pending ministerial and treasury approval.

Agricultural produce cess and a portion of the Local Authority Transfer Fund (LATF) are the other possible sources of revenue that KRB has managed to identify that could be used towards road maintenance. Concerted efforts are being made to collect coffee and tea cess. Other agricultural products (i.e. sugar and horticulture) could also be used to expand the source of financing required for the road network and will be pursued.

1.8 Impact of the Economy on RMLF

It has become clear that given the twin pressures of a weakening shilling and rise on fuel cost, the rate of inflation has gone higher with serious consequences on the cost of our services. It is estimated that only 80% of the network maintained in FY2010/11 may be maintained in FY2011/12 and dropping even lower in FY2012/13.

This means that if nothing is done to harness more finances, the percentage of maintainable network will drop resulting in an increase in the backlog rather than reduction, consequently requiring more funds for future rehabilitation. This will impact negatively on the Road Sector Investment Programme. Some of the measures proposed to enhance KRBF include:-

Increase of the fuel levy by an extra Kshs 5/- to address the maintainable network only.

Pursue an infrastructure bond for reduction of the backlog, and Aggressively pursue outdoor advertising and other sources of funds such as fines on overloading, motor vehicle licensing to raise more funds.

2.0 IMPACT OF IMPROVED ROAD INFRASTRUCTURE

2.1 Contributions to the National Economy

The Government Vision 2030 aspires for a country firmly interconnected through a network of roads, railways, ports, airports, water and sanitation facilities, and telecommunications. Improvement of infrastructure is seen as fundamental to the growth of the identified driving sectors of the economy. Implementation of the APRP is expected to contribute significantly to infrastructure improvement and therefore to national economic growth. Better roads will also contribute to poverty reduction by lowering the costs of goods and services, improving access to social facilities and administration centers and improving safety and security.

Kenya Roads Board has adopted Roads 2000 Strategy that will be applied towards utilization of local resources where it is cost effective. This strategy is aimed at utilizing labour for maintenance of roads in rural areas and is expected to contribute towards eradication of poverty. It also supports "Kazi Kwa Vijana" strategy adopted by Government for providing employment to the youth in the country.

2.2 Funds Management and Performance

The major drawback in the performance of the road sector has been poor management of funds and poor delivery of services to the road user. It is therefore encouraging to note that the Government has continued to strengthen both the economic and political reforms with introduction of Performance Contracts which aim at improving delivery of services to the public.

The enactment of the Kenya Roads Act 2007 and operationalization of the three road implementing authorities (Kenya National Highways Authority, Kenya Rural Roads Authority and Kenya Urban Roads Authority) for the roads sub-sector also streamlines implementation within the sub sector. The authorities are fully operational and implementing road works programmes.

It is the objective of KRB to ensure that the KRBF is managed efficiently in order to improve the level of service provided to road users.

3.0 FUNDING ROAD PROGRAMMES IN FINANCIAL YEAR 2012/2013.

3.1 Projected funding of the APRP for Financial Year 2012/2013

Projected collections of the RMLF and Transit Tolls during the Financial Year 2012/2013 are Ksh. 24,000,000,000 and Ksh. 400,000,000 respectively. It is also estimated that about Ksh. 90,000,000 will be collected from agricultural cess and specifically from Coffee Cess. Table 3.1.1 indicates the actual collections of the KRBF during FY 2011/2012 and projected collections for Financial Years, 2012/2013 and 2013/2014.

Table 3.1.1: Actual and Projected collections

| Financial Year | Actual Collections 2011/2012 | Projected 2012/2013 | Projected 2013/2014 |
|-----------------------------|------------------------------|-----------------------|-----------------------|
| Recurrent - RMLF | 23,670,000,000 | 24,000,000,000 | 25,625,000,000 |
| TRANSIT TOLLS | 350,000,000 | 400,000,000 | 450,000,000 |
| Agricultural Cess + Others | 80,000,000 | 90,000,000 | 100,000,000 |
| TOTAL AVAILABLE KRBF | 24,100,000,000 | 24,490,000,000 | 26,175,000,000 |

3.2 Proposed Funds Disbursement to Road Agencies and Sub Agencies

Through the enactment of the Kenya Roads Act No. 2 of 2007, three road agencies i.e. Kenya National Highways Authority, Kenya Rural Roads Authority and Kenya Urban Roads Authority, were formed. The Authorities are fully operational and implementing all Road Work Programmes.

KWS continues to be KRB's agency responsible for maintenance of roads in all National Parks and game reserves for which they have jurisdiction.

3.3 Summary of planned APRP works by Road Agencies

The table below (Table 3.2.2) provides a summary of all works that the road agencies have committed themselves to undertake in the FY 2012/13. A total of 61,644 Kms is earmarked for various interventions as indicated in the table below.

Table 3.2.2: Summary of planned works (Figures in Millions)

| ROAD AGENCY | SURFACE TYPE | WORKS | | | | | | |
|-------------|--------------|--------------|---------------------|-----------------|------------------------------|------------------|------|-----------------|
| | | Road Network | Routine Maintenance | Periodic Maint. | Periodic Maint. (Structures) | Spot Improvement | PBMC | Total Length km |
| | | km | km | | No | km | km | |
| KeNHA | Paved | 6,782 | 4,747 | 2,018 | 56 | 2,423 | 825 | 10,013 |
| | Unpaved | 7,134 | 3,444 | | | | | 3,444 |
| KeRRA | Paved | 2,268 | 80 | - | 32 | | | 80 |
| | Unpaved | 127,569 | 34,182 | | | 10,383 | - | 44,565 |

| | Unpaved | 149,689 | 40,296 | | - | 10,383 | - | 50,679 |
| GRAND TOTAL | | 160,886 | 45,886 | 2,044 | 88 | 12,806 | 908 | 61,644 |

3.0 4.0 IMPLEMENTING THE FINANCIAL YEAR 2012/2013 APRP.

3.0 4.1 Assumptions Made

The APRP is based on the following assumptions:

- Revenue estimates from RMLF and Transit Toll collections will be realized.
- The macro economic and political environment will remain stable.
- Stability in the monetary and fiscal policies will be maintained.
- Stakeholders support to the Road Sector will continue.
- Revenue collections will accrue steadily to facilitate regular disbursements.
- Normal weather conditions will prevail.
- Road Authorities will remain the same

The proposed funding summary for FY 2012/2013 to be disbursed to the Road Agencies is shown in Table 3.2.1 below

Table 3.2.1: Allocation of Funds - Projections

| Road Agencies | FY 2011/2012 | FY 2012/2013 | FY 2013/2014 |
|-----------------------------------|----------------|----------------|----------------|
| 1 KRB Operations 2% | 480,000,000 | 488,000,000 | 521,500,000 |
| 2 KeRRA - Roads in Constituencies | 5,207,400,000 | 5,280,000,000 | 5,637,500,000 |
| 3 KeRRA - Critical Links 10% | 2,367,000,000 | 2,400,000,000 | 2,562,500,000 |
| 4 KeRRA - Agricultural Cess | 80,000,000 | 90,000,000 | 100,000,000 |
| 5 KURA 15% | 3,550,500,000 | 3,600,000,000 | 3,843,750,000 |
| 6 KWS 1% | 236,700,000 | 240,000,000 | 256,250,000 |
| 7 KeNHA 40% | 9,468,400,000 | 9,600,000,000 | 10,250,000,000 |
| KeNHA Transit Tolls | 343,000,000 | 392,000,000 | 441,000,000 |
| KeNHA Sub-total | 9,811,000,000 | 9,992,000,000 | 10,691,000,000 |
| 8 To be allocated by KRB/Minister | 2,367,000,000 | 2,400,000,000 | 2,562,500,000 |
| TOTAL KRBF | 24,100,000,000 | 24,490,000,000 | 26,175,000,000 |

4.2 Constraints to the APRP.

The following constraints are faced by KRB in fulfilling its mandate and the budget objectives:

- Insufficient RMLF and Transit Toll collections.
- Insufficient Development funds forcing KRB Funds to be used for major Rehabilitation and Reconstruction works
- Institutional Capacity of the Road Agencies.
- Kenya's low consulting/contracting capacity.
- Large Project portfolio.

The need to develop mechanisms for capacity building of local contractors and consultants cannot be overstated.

Deliberate efforts must also be made by all stakeholders to train professional and technical staff in both public and private sectors.

Studies have shown that most skilled professional and technical staff are either desk bound, retired or no longer trained. Skill improvement within the Road Agencies and revival of training opportunities for Technicians is critical.

4.3 Implementation of the APRP

KRB expects the Road Agencies to be accountable, transparent and to operate within their indicated ceilings and to adhere to budgetary discipline, transparent procurement processes and applicable Standards and Specifications. At the same time they will be expected to follow KRB's rules, regulations, procedures and guidelines (RRPG) as developed especially on requiring concurrence from KRB before initiating new KRBF funded projects and Variation Orders.

4.4 APRP Performance Evaluation.

Quarterly returns received from road agencies and sub-agencies as they carry out works contained in this APRP will be used to evaluate their performance. KRB has developed simple returns format that reviews works accomplished against indicated budget line items, financial expenditure against indicated line items and labour resource employment. In addition, RMMS has been institutionalized and fully operational in all the three Road authorities and KWS to facilitate reporting. The need to receive returns on labour resource employment will help towards identifying the contribution of the disbursed funds towards employment creation and poverty reduction in rural areas.

In addition to the regular accomplishment and financial returns, KRB will;

- (i) carry out regular Technical Compliance, Performance and Financial Audits in accordance with good audit practice; and,
- (ii) Circulate Audit Reports for action to the appropriate accounting officer for the concerned Road Agency.

4.0 5.0 OVERALL FUNDING OF THE APRP PROGRAMME IN FY 2012/2013.

5.1 Total Proposed KRBF Funding as per Criteria contained in the KRB Act

Table 3.2.1 above shows the funding to various road agencies and categories of roads as per the Kenya Roads Board Act. The details of each category are described below.

5.2 Kenya National Highways Authority– KeNHA.

5.2.1 KeNHA – Funding

The projected ceiling indicated for managing this network is Ksh. 9,992,000,000.

This is composed of Ksh. 9,600,000,000 being 40% of RMLF and Ksh. 392,000,000 from Transit Toll collections. Since collections of Transit Tolls are realized on the Northern corridor, it should all be ploughed back to maintain the corridor.

These funds are inclusive of the administration and operational costs of KENHA in line with the Act.

For this allocation, KeNHA has planned to carry out routine maintenance of 8,191 kms, Periodic maintenance of 2,018 kms, spot improvement of 2,423 kms and Performance based contracts of 825 kms.

The programme was prepared and submitted by KeNHA in consultation with KRB.

5.2.2 Prioritization of maintenance intervention measures

The broad priorities on classes A, B, and C Roads are:

- (i) Carrying out Routine and Periodic Maintenance on all maintainable roads.
- (ii) Completion of on going projects.
- (iii) Rehabilitation of deteriorated sections of the network to bring them back to maintainable standards.
- (iv) Upgrading highly trafficked sections of the network to bitumen or gravel standards. Most of the upgrading is normally funded from the Development Vote.

Underlying the priorities mentioned above, KeNHA is expected to identify and prioritize roads for maintenance intervention on the basis of economics, and cost benefit analysis.

5.3 KeRRA -Maintenance on classes D, E and other Roads

During the FY 2012/2013, a total of Ksh. 7,770,000,000 has been allocated for maintenance of D, E, and others category as part of 10% ,22% of RMLF and coffee cess. The details of the Work Programmes were prepared by the CRCs and have been submitted by KeRRA in consultation with KRB.

The funds are inclusive of the administration and operational costs of KeRRA in line with the Act.

5.3.1 Equal Allocation Portion of 10% of the RMLF

During the FY 2012/2013, a sum of Ksh. 2,400,000,000(which is 10% of the projected RMLF collections) has been allocated for the equal portion of RMLF for maintenance of critical links in class D, E, SP and other roads. In accordance with the Act, these funds are to be distributed equally among all the constituencies for critical links and counterpart funding among others. The funds will be allocated equally among all constituencies at an amount of Kshs 9.4 million each after deducting the portion for KeRRA administration and operational expenses.

For this allocation, KeRRA has planned to carry out routine maintenance of 7,979 km of roads.

KeRRA regions will coordinate the implementation of works in the constituencies.

5.3.2 Maintenance of Roads in Constituencies

The KRB Act, as amended by the Kenya Roads Act No. 2 of 2007 indicates that 22% of the RMLF shall be allocated equally to all 210 constituencies, for road works in the constituencies. These funds are managed by the Constituency Roads Committees (CRCs) with coordination of KeRRA.

The 22% portion of the RMLF for Constituency Roads in FY 2012/2013 amounts to Ksh 5,280,000,000. The 210 constituencies will receive a total of KShs. 4.3725 billion after deducting the portion for administration and operations with each constituency receiving an equal amount of Kshs 20.5million. The balance will be set aside for emergency road works within the constituencies.

For this allocation, KeRRA has planned to carry out routine maintenance of 37,540 km of roads.

The implementation of the 22% constituency budget will be carried out by KeRRA - in consultation with the CRCs. The Regional Manger, KeRRA is the Secretary to the CRC. Procurement will also be done at the constituency level.

The following criteria are used for prioritizing roads to be maintained in the constituencies:

- (i) All the maintainable roads are given first priority for routine maintenance in order to protect the investment.
- (ii) Roads connecting administrative, market and social centers and the classified road network, including security roads, are attended to next.
- (iii) Any remaining funds are then used to improve accessibility through spot improvement.

5.4 Kenya Urban Roads Authority (KURA) - (Maintenance of Urban Roads)

KRB will fund maintenance of urban roads from of the 15% portion of the RMLF. During the Financial Year 2012/2013, a total of Ksh 3,600,000,000 has been set aside for these activities. These funds have been allocated for maintenance of road works in the city council of Nairobi and all other municipalities countrywide. This is inclusive of the administration and operational costs of KURA as provided for under the Act.

For this allocation, KURA has planned to carry out periodic maintenance of 26 km, Routine maintenance of 1,711 km and put 83 km under performance based contract.

The work programme was prepared and submitted by KURA in consultation with the relevant Local Authority and KRB.

KRB provided to KURA a schedule of allocations to the City and Municipalities derived from criteria among which were population and road network.

5.5 Maintenance of Roads in National Parks and Game Reserves

The KRB Act recognizes Kenya Wildlife Services (KWS) as a road agency with the responsibility of maintaining approach roads and roads within National Parks and Game reserves. KWS is allocated 1% of RMLF. For the 2012/2013 financial year, the allocation is KShs. 240,000,000.

For this allocation, KWS has planned to carry out routine maintenance of 1,693 km of its network.

The road agency is expected to carry out maintenance (routine and periodic) and utilize some of the funds for administrative purposes in consultation with KRB.

The utilization of these funds for administration and routine maintenance is indicated in Annex 7

The programme was submitted by KWS in consultation with KRB.

5.6 10% Allocations based on Roads Sub-sector Investment Programme (RSIP)

The KRB Act provides for 10% of RMLF allocation of funds based on a five year RSIP. In the absence of an Approved RSIP, KRB shall within the year in consultation with the Minister draw up a programme on the basis of needs and critical areas of the roads sub-sector in line with the draft RSIP.

5.7 Roads 2000 Strategy/Research and Development

KRB strongly recommends that the Roads 2000 (R2000) Maintenance Strategy be applied for Routine Maintenance on all categories of roads. This is a strategy for sustainable maintenance which focuses on the network as a whole and promotes the use of local resources and labour where these are cost effective. This approach contributes towards the Economic Recovery Strategy for Employment and Wealth Creation through employment of labour in local communities.

In March 2007, the then Minister for Roads and Public Works launched the 1st R2000 Strategic Plan 2005 – 2010. This Strategic plan was developed in 2004 and implemented Country wide during that period.

Currently, a New Strategic plan 2012-2017 which aligns itself to the first Medium Term Plan of Kenya's vision 2030 has been formulated and will be launched soon.

Vision 2030 recognises R2000 Strategy as a vessel to create employment and wealth within the roads sub-sector.

Several Development Partners have supported the R2000 Strategy in the Country and some currently have ongoing R2000 programmes in the Country. These Development Partners include SIDA, KfW, DANIDA, AfDB, EU and AFD.

Currently, AFD has commenced implementation of Phase II of its R2000 Programme in five counties in Central Kenya and Laikipia County. The EU programme is expected to roll out phase III soon which will cover most of the Counties in Eastern Province under EDF 10. The KfW programme for R2000 in Western Kenya is in the preliminary stages of implementation and it is expected to cover several counties in Western Province. Finland is supporting Busia County in a programme known as PALWECO. Those Counties not supported by a Development Partner will be expected to use the R2000 strategy in implementing works funded from the Kenya Roads Board Fund.

Many of these programmes have also included the use of Low Cost/Volume sealing approach along with other research and pilot studies on concrete paving, cobblestone and block paving. KRB has partnered with the development partners in pursuit of this initiative. This is in line with the recommendations of the RSIP. KRB is seeking liaison with Development partners to seek more funds to support the initiative.

To coordinate the development of the R2000 Strategy and its implementation countrywide, a R2000 management structure which is composed of a National Steering Committee (NSC) chaired by PS MoR and a National Coordination Committee (NCC) chaired by the Executive Director, KRB are in place and meet regularly.

The R2000 National Coordination Committee developed several technical documentations including routine maintenance operations manual, small scale contracting operations and contract manuals and a small scale contractor training programme. All road agencies and sub-agencies are encouraged to use these in the delivery of road works using small scale contractors.

To enhance coordination of the strategy KRB is in discussion with the Ministry of Roads to ensure that;

1. The mobilization and administering of Funds for the R2000 Strategy is vested on the Board.
2. That all prioritization works are uniform across the board for all the funds, which will mean full community participation for the constituency work programmes.
3. The role of the management consultants be expanded to cover all the funds in discussion with the development partners.

It is hoped that this will improve the image and perception of the Strategy.

A socio-economic study of the strategy in Nyanza and Central Regions revealed the following benefits among others:

- Accessibility improved in project areas as roads became motorable throughout the year
- Increased freight & passenger transport mobility
- Travel time decreased significantly
- Traffic volume increased up to 30%
- Significant increase in Motor Cycle transport (three fold)
- Cost of transport went down (except Gok/Sida) due to change in mode of transport
- Farm gate prices of main cash crops went up significantly and in non essential travel decreased
- General increase in school enrolment & attendance at the Health centres
- Most significantly, Nyanza project reported an increase in the movement of the poor & women

KRB shall continue to support and spearhead the R2000 Strategy and the research initiatives for the benefit of the community and for better roads.

OUR QUALITY POLICY

We at Kenya Roads Board are committed to oversee the provision of a safe, efficient, environmental friendly and sustainable road network through funding and optimal utilization of resources for socioeconomic development.

We shall endeavour to maintain and continually improve the effectiveness of our quality management systems to meet the stakeholders expectations in accordance with ISO 9001-2000 requirement and best practices in the world.
